**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, 9-17, 22-25 and 26-28 drawn to a polling method, classified in class 370, subclass 346.
  - II. Claims 18-21, drawn to tearing down a wireless data traffic channel used by the wireless transceiver unit in response to detecting a power failure, classified in class 370, subclass 216.
  - III. Claims 29-31, drawn to delaying for a random period of time in response to receiving the information request message, classified in class 370, subclass 519.
  
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as *tearing down a wireless data traffic channel used by the wireless transceiver unit in response to detecting a power failure* and invention III has separate utility such as *delaying for a random period of time in response to receiving the information request message*. See MPEP § 806.05(d).

Art Unit: 2686

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nghi H. Ly whose telephone number is (703) 605-5164. The examiner can normally be reached on 8:30 am-5:30 pm Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marsha Banks-Harold can be reached on (703) 305-4379. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9314.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
